MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION, RESULTS OF OPERATIONS AND CASH FLOWS FOR THE HALF YEAR ENDED 30 SEPTEMBER 2025

The financial statements for the half year ended, and as at, 30 September 2025 are unaudited.

Numbers in all tables may not exactly add due to rounding.

For all pages, "@" denotes more than +/- 500%, "\*" denotes less than +/- \$\$0.5 million or A\$0.5 million and "\*\*" denotes less than +/- 0.05%, unless otherwise indicated.

For all tables, a negative sign for year-on-year change denotes a decrease in operating revenue, expense, gain or loss

- (1) Comprised mobile customers of Singtel, Optus, Airtel, Telkomsel, Globe and AIS.
- (2) The comparatives had not included Smartfren's mobile customer base in the calculation of market shares.
- (3) Excluded contribution from Trustwave. The Group deconsolidated Trustwave from October 2023.
   (4) Defined as EBIT (post-tax) divided by average capital (excluding Optus goodwill).
- (5) Defined as EBIT (post-tax) divided by average capital (excluding Optus goodwill and exceptional items).

#### FINANCIAL HIGHLIGHTS

#### FOR THE HALF YEAR ENDED 30 SEPTEMBER 2025

- Operating revenue declined 1.2%, while EBITDA and OpCo EBIT<sup>1</sup> rose 1.8% and 13% respectively amid a 6% depreciation of the Australian Dollar. In constant currency terms<sup>2</sup>, operating revenue, EBITDA and OpCo EBIT<sup>1</sup> increased 1.9%, 4.9% and 14% respectively, driven mainly by NCS and Optus.
- Associates' post-tax profit contributions was up 9.8%. Excluding Intouch and in constant currency terms<sup>2</sup>, the associates' post-tax contributions would have risen 23%<sup>3</sup> due to strong performances from Airtel and AIS despite lower contributions from Telkomsel and Globe.
- Underlying net profit increased 14%.
- A net exceptional gain of S\$2.05 billion was recorded, primarily from the sale of a partial stake in Airtel and the Intouch-Gulf Energy merger.
- With a higher net exceptional gain, net profit increased to S\$3.40 billion.
- Free cash flow was up 11% on higher operating cash, partially offset by higher capital expenditure.

<sup>1</sup> OpCo EBIT is defined as EBITDA less depreciation and amortisation charges.

<sup>2</sup> Assuming constant exchange rates for the Australian Dollar and/or regional currencies (Indian Rupee, Indonesian Rupiah, Philippine Peso and Thai Baht) from the corresponding period ended 30 September 2024.

<sup>&</sup>lt;sup>3</sup> Excluded results of Intouch which ceased to be equity accounted from 1 April 2025 as well as withholding tax expense on dividends received.

Unless otherwise stated, the presentation of income statements in this document is consistent with prior periods.

### Notes:

- (1) Assuming constant exchange rates for the Australian Dollar and/or regional currencies from the corresponding period ended 30 September 2024.
- (2) OpCo EBIT is defined as EBITDA less depreciation and amortisation charges.
- (3) Excluded results of Intouch which ceased to be equity accounted from 1 April 2025 as well as withholding tax expense on dividends received.

#### **REVIEW OF GROUP OPERATING PERFORMANCE**

#### For The Half Year Ended 30 September 2025

The Group's operating revenue declined 1.2% while EBITDA and OpCo EBIT<sup>4</sup> grew 1.8% and 13% respectively amid a 6% depreciation of the Australian Dollar. In constant currency terms, the Group's operating revenue, EBITDA and OpCo EBIT<sup>4</sup> rose 1.9%, 4.9% and 14% respectively, driven mainly by NCS and Optus.

Optus' operating revenue was up 1.7%. Mobile service revenue rose 4.8% mostly from postpaid, while equipment sales revenue fell due to lower device sales. Home revenue was higher on ARPU growth. Overall wholesale, enterprise and business fixed revenue decreased, mainly due to lower project-based satellite revenue which was partially offset by higher enterprise fixed and network sharing revenues. With operating expenses stable from the same period last year, EBITDA increased 7.2%. Depreciation and amortisation expense was higher due to amortisation of spectrum acquired in the prior year. Consequently, EBIT increased 27%.

Singtel Singapore reported stable operating revenue despite a highly competitive market, with mixed performance across its service segments. Data and Internet, and ICT revenues were higher. However, mobile service revenue fell 9.7% on intense price competition and reduced roaming, partially mitigated by growth in Internet of Things (IoT) connectivity. EBITDA declined 3.2% on reduced margins. EBIT remained stable following lower depreciation and amortisation charge due to a smaller asset base.

NCS' operating revenue grew 6.2%, driven primarily by growth in its Gov+ and Telco+ businesses. EBITDA and EBIT increased 30% and 41% respectively, reflecting solid operational performance underpinned by margin expansion across all business segments, better delivery quality and cost optimisation. The results were also lifted by a one-off credit from a sub-contractor. NCS booked S\$1.8 billion in orders in the first half of the year, driven by new contract wins and renewals across various industries.

Digital InfraCo's revenue fell 1.5% due to a customer reservation fee received for DC Tuas in the same period last year which did not recur, as well as a decline in project-based satellite deployment services. However, the decreases were partially offset by new data centre services and price increases, and contributions from its AI cloud business, RE:AI, which launched last October. EBITDA remained stable as operating expenses were lower. After accounting for a lower depreciation and amortisation charge as certain assets reached end-of-life, EBIT increased 5.8%.

Pre-tax and post-tax contributions from the associates grew 18% and 9.8% respectively. Excluding Intouch, the pre-tax and post-tax contributions would have risen 26% and 19% respectively. If currency translation effects are also excluded, the pre-tax and post-tax contributions would have increased 31% and 23% respectively. The increase reflected strong performances from Airtel and AIS, despite lower contributions from Telkomsel and Globe.

<sup>&</sup>lt;sup>4</sup> OpCo EBIT is defined as EBITDA less depreciation and amortisation charges.

Airtel Group saw robust earnings growth in both India and Africa from strong execution and higher mobile tariffs. Bharti Telecom reported a larger net loss due to higher finance costs after raising its Airtel stake through borrowings, and increased dividend tax mainly from Airtel's larger payout. AIS posted stronger profit due to revenue growth and effective cost management. Telkomsel's net profit fell due to weaker mobile performance, a capital gain from sale and leaseback of indoor infrastructure in the last corresponding period, and higher interest expenses. Globe's earnings were lower due to weak consumer spending, as stable EBITDA and increased contributions from its fintech associate were offset by higher depreciation and finance charges.

Net finance expense declined 5.3% as a result of a foreign exchange gain as compared to a loss in the last corresponding period, and a lower interest expense. The gains were partially offset by a reduction in interest income.

Consequently, underlying net profit increased 14% to S\$1.35 billion.

The net exceptional gain in the first half of the year comprised mainly gains from the sale of a partial stake in Airtel and the Intouch-Gulf Energy merger, partially offset by decommissioning and other provisions.

With a higher net exceptional gain, net profit increased to S\$3.40 billion.

Free cash flow for the first half of the year increased 11% to S\$1.45 billion. The increase was mainly attributable to improved operating performance, working capital movements and higher dividends received from the associates, which were partially offset by higher capital expenditure.

#### **NET FINANCE EXPENSE**

	Half Year 30 Sep		
			YOY
	2025	2024	Chge
	S\$ m	S\$ m	%
Not into not over any			
Net interest expense	(000)	(000)	
- Interest expense	(222)	(238)	-6.8
- Interest income	52	75	-31.0
	(170)	(163)	4.3
Other finance income/(expense)			
- Investment income (1)	*	*	nm
- Foreign exchange gain/(loss)	5	(12)	nm
- Net fair value loss <sup>(2)</sup>	(1)	(1)	28.6
	4	(12)	nm
Net finance expense	(166)	(175)	-5.3

<sup>&</sup>quot;\*" denotes less than +/- S\$0.5 million and "nm" denotes not meaningful.

#### Notes:

- (1) Included dividend income from 'Fair Value through Other Comprehensive Income' investments and other investment gains/losses.
- (2) Comprised mainly adjustments for hedging instruments and other financial instruments including options measured at fair values under SFRS(I) 9, *Financial Instruments*.

Interest expense decreased on payment of a previously accrued ATO interest-bearing provision. Interest income declined on a lower average interest rate.

The foreign exchange gain arose mainly from the revaluation of US Dollar and Euro denominated monetary assets.

#### **EXCEPTIONAL ITEMS (POST-TAX)** (1)

	Half \	Half Year		
	30 S	ep	YOY	
	2025	2024	Chge

Net exceptional gains (post-tax)	2,050	42	@	

<sup>&</sup>quot;" denotes less than +/- S\$0.5 million, "@" denotes more than +/- 500% and "nm" denotes not meaningful.

#### Notes:

(1) Exceptional items are material non-recurring items for which separate disclosure is considered necessary to avoid distortion of reported results of performance.

(2) The Group disposed 0.003% of its direct stake in Airtel in the last corresponding period.

(3) Included provisions made on prudent grounds for the Group's various regulatory exposures and related remediation expenses. Other net loss in the last corresponding period comprised mainly certain provisions and accelerated depreciation of Comcentre's assets.

In May 2025, the Group sold 1.2% of its direct stake in Airtel for net proceeds of S\$1.93 billion. Following the completion of the divestments, Singtel's effective stake in Airtel is 28.1%<sup>5</sup>, down from 29.4% previously. The net exceptional gain was S\$1.67 billion<sup>6</sup>.

Intouch, which the Group had an equity stake of 21.3%, merged with Gulf Energy in April 2025 to form Gulf Development Public Company Limited ("**Gulf**"). Gulf took over all assets, liabilities, rights, duties and responsibilities of the former entities. Following the merger, the Group holds 7.7% of equity stake in Gulf and Gulf has been classified as a "Fair Value Through Other Comprehensive Income" investment<sup>7</sup>. The resulting exceptional gain arising from this merger was S\$746 million.

A provision of S\$124 million was made for the decommissioning cost of Hybrid Fibre-Coaxial (HFC) cables in Australia, reflecting the constructive obligation to decommission the cables over the next few years. In addition, S\$23 million of provision was made for onerous lease contracts related to the poles supporting the coaxial cables.

An impairment charge of S\$23 million was recorded for property, plant and equipment upon Optus Sport's closure.

<sup>&</sup>lt;sup>5</sup> This comprises a direct stake of 8.0% in Airtel, and 20.1% indirect stake through Bharti Telecom.

<sup>&</sup>lt;sup>6</sup> On a post-tax basis, the net exceptional gain was S\$1.47 billion.

<sup>&</sup>lt;sup>7</sup> Under Singapore Financial Reporting Standards, dividends (if any) from Gulf will be recognised as investment income in the income statement, and fair value changes in carrying value of Gulf will be taken to reserves.

#### **TAX EXPENSE**

	Half Year	
	30 Sep	YOY
	2025	Chge
	S\$ m	S\$ m %
Income tax expense		
Optus	31	23 38.5
Singtel and other subsidiaries	72	61 18.6
Total (a)	104	84 24.0
Share of associates' tax expense (b)	480	350 37.2
Withholding taxes on associates' dividend income (1)	100	101 -1.3
Total	683	535 27.8
Profit before exceptional items and tax	2,043	1,731 18.0
Exclude:		
Share of associates' pre-tax profits	(1,379) (	1,169) 18.0
Adjusted pre-tax profit (c)	664	563 18.0
Effective tax rate of Singtel and		
subsidiaries (a)/(c)	15.6%	14.8%
Share of associates' pre-tax profits (d)	1,379	1,169 18.0
Effective tax rate of associates (b)/(d)	34.8%	30.0%

#### Note:

(1) Withholding taxes are deducted at source when dividends are remitted by the overseas associates. For accounting purposes, the dividend income and related withholding taxes are accrued when declared by the associates. Dividend income has no impact on the income statement of the Group as they are eliminated at the Group. The cash inflows upon the receipt of dividend are shown on page 11.

Overall tax expense grew in line with higher earnings. The effective tax rate of the associates was higher as BTL incurred more dividend tax in India mainly from Airtel's larger payout.

#### **SUMMARY STATEMENTS OF FINANCIAL POSITION**

		As at

Total Equity	27,244	25,956	24,594

#### Note:

(1) Comprised cash and bank balances and fixed deposits (including those maturing longer than three months).

The Group continued to be in a strong financial position as at 30 September 2025. Singtel's ratings of A1 by Moody's and A by S&P Global Ratings remain strong among its peers in the global telecommunications industry.

A higher currency translation loss was recorded from 31 March 2025, primarily from Airtel, Telkomsel and Globe.

#### **CAPITAL MANAGEMENT**

As at	
30 Sep 31 Mar	30 Sep
2025 2025	2024
S\$ m S\$ m	S\$ m
550 1,469	2,444
10,839 10,203	9,182
financial position 11,389 11,672	11,626
725 544	778
12,114 12,215	12,404
(3,365) (2,774)	(2,679)
8,749 9,442	9,725
30.8% 32.0%	33.5%
24.3% 26.7%	28.3%
ociates' pre-tax profits <sup>(4)</sup> 1.30X 1.50X	1.56X
40. www.fite/net internet owners (5) 40.0V 40.4V	19.1X
tax profits/net interest expense <sup>(5)</sup> 19.8X	18.1X

#### Notes:

- (1) The net hedging liability relates to the fair values of cross currency and interest rate swaps.
- (2) Comprised cash and bank balances and fixed deposits (including those maturing longer than three months).
- (3) Gross debt gearing ratio refers to the ratio of gross debt to gross capitalisation. Gross capitalisation is the aggregate of gross debt and equity.
- (4) Net debt to EBITDA and share of associates' pre-tax profits is calculated on an annualised basis.
- (5) Net interest expense refers to interest expense less interest income.

As at 30 September 2025, net debt decreased by S\$693 million from six months ago mainly due to a higher cash balance attributable to stronger free cash flow and net proceeds from divestments. With a lower net debt, the gearing ratio fell to 24.3% from 26.7%.

#### **CASH FLOW**

#### Notes: Dividend policy, and receipts after 30 September 2025

- (1) Telkomsel declared a full year ordinary dividend of 100% on its FY2024 core net profit (FY2023: 100%).
- (2) AIS' dividend policy is to pay dividend at a minimum of 70% of its net profit. AIS declared a full year dividend of 90% on its FY2024 net profit (FY2023: 88%).
- (3) Globe's dividend policy is to pay 60% to 90% of prior year's core net profit. Globe will pay its next quarterly dividend of PHP 25 per common share in December 2025. The Group's share of this dividend is approximately S\$38 million.
- (4) In April 2025, Intouch merged with Gulf Energy to form Gulf Development Public Company Limited, of which Singtel holds an equity stake of 7.7% and will account for it as a "Fair Value Through Other Comprehensive Income" investment.
- (5) Airtel does not have a fixed dividend policy.
- (6) NetLink NBN Trust's policy is to distribute 100% of its cash available for distribution (CAFD), which includes distributions from its wholly-owned subsidiary NetLink Trust ("NLT"). NLT's distribution policy is to distribute at least 90% of its distributable income to NetLink NBN Trust after setting aside reserves and provisions for, amongst others, future capital expenditure, debt repayment and working capital as may be required. On 3 November 2025, NetLink NBN Trust declared a distribution of \$\$0.0271 per unit for its distribution period for the half year ended 30 September 2025 which will be payable in November 2025. The Group's share of this distribution is approximately \$\$26 million.

Net cash inflow from operating activities, excluding associates' dividend receipts, was up a strong 47% to S\$1.70 billion, primarily from improved operational performance and working capital movements. Dividends from the associates also rose, attributed to higher payouts from AIS and Airtel, along with a special dividend from SingPost. These inflows were partially offset by the absence of a dividend from Intouch. Consequently, total cash flow from operations rose 27% to S\$2.72 billion.

Net cash inflow from investing activities amounted to S\$225 million. In the first half of the year, the Group received proceeds of S\$1.93 billion from the sale of the Group's 1.2% stake in Airtel, as well as S\$337 million from the deemed disposal of a 5.8% stake in Nxera8. Cash outflow for capital expenditure was up 52% to S\$1.28 billion, including Optus' capital expenditure of S\$608 million (A\$726 million). Mobile network investment was S\$332 million (A\$396 million) in Australia and S\$126 million in Singapore. Other investing cash outflows included a payment of S\$510 million for a 1.4% stake in AIS, S\$104 million for the Group's proportionate stake in GXS Bank Pte. Ltd. and a second tranche payment of S\$100 million for the Group's subscription of redeemable non-voting preference shares in the capital of STT GDC Pte. Ltd.

The Group's free cash flow grew 11% to S\$1.45 billion mainly on higher operating cash partially offset by higher capital expenditure.

Net cash financing outflow of S\$2.35 billion for the first half year were largely payments of S\$1.65 billion for last financial year's final dividend, net repayment of borrowings of S\$389 million and net interest payments for borrowings and swaps of S\$227 million.

<sup>&</sup>lt;sup>8</sup> Stellar Asia Holdings II Pte. Ltd., a fund managed by global investment firm, Kohlberg Kravis Roberts & Co. L.P.(KKR), has committed up to S\$1.1 billion for a 20% stake in Nxera.

#### **OUTLOOK FOR THE CURRENT FINANCIAL YEAR ENDING 31 MARCH 2026**

For the first half of the year ended 30 September 2025, OpCo EBIT grew 13% and would have risen 14% in constant currency terms. In September, Optus experienced a serious outage that impacted emergency services, and investigations into the outage are currently ongoing.

Taking into consideration the strong first-half growth and uncertainties in Australia as a result of the outage, the Group is revising its earlier guidance of high single-digit growth and now expects OpCo EBIT for the financial year ending 31 March 2026 to grow between high single digits and low double digits<sup>9</sup>.

Dividends from the regional associates are expected to be S\$1.1 billion, up from S\$1.0 billion.

Other than the above, the Group affirms its guidance previously issued in May 2025.

Please refer to **Appendix 1** for further details on the outlook for the current financial year.

#### **DIVIDEND**

On 11 November 2025, the Board approved an interim ordinary dividend of 8.2 cents (H1 FY2025: 7.0 cents) per share for the half year ended 30 September 2025, up 17% from the last corresponding period. This comprises a core dividend of 6.4 cents (H1 FY2025: 5.6 cents) per share and a value realisation dividend of 1.8 cents (H1 FY2025: 1.4 cents) per share, totalling S\$1.35 billion. The core dividend represented 78% (H1 FY2025: 78%) of underlying net profit for the half year ended 30 September 2025.

The interim ordinary dividend of 8.2 cents per share will be paid on 9 December 2025.

<sup>&</sup>lt;sup>9</sup> Based on average exchange rate during FY2025 of AUD1: S\$0.8725.

#### FINANCIAL PERFORMANCE

#### For The Half Year Ended 30 September 2025

Optus' EBITDA and EBIT increased 7.2% and 27% respectively in the first half of the year. The improved performance was led by growth in mobile, enterprise fixed and network sharing revenues. This was partially offset by reductions in equipment sales and project-based satellite revenues and higher depreciation and amortisation from spectrum acquired in prior year.

Mobile service revenue grew 4.8%, mainly from postpaid. However, mobile equipment sales revenue fell 4.6% due to lower device sales. Consequently, overall Mobile revenue was up 2.4%.

Home revenue rose 2.4% with NBN and FWA revenue up 2.8% and 4.7% respectively, driven by higher ARPU.

Wholesale and Enterprise & Business Fixed revenue declined 1.8%, mainly from lower project-based satellite revenue, partially offset by growth in Enterprise managed network services and network sharing revenue.

Operating expenses were stable. Cost of sales fell due to reduced device sales, which was offset by higher staff costs from lower capitalisation as well as increased repairs and maintenance because of software licensing fees.

As at 30 September 2025, Optus has provided for the cost of decommissioning HFC cables and related onerous lease contracts, as well as the impairment of certain Optus Sport's assets. These are classified as exceptional losses of the Group (see page 7).

#### **Section 2: OPTUS**

#### **BUSINESS HIGHLIGHTS**

Optus' mobile customer base increased by 169,000 from a year ago. This was primarily led by an increase of 124,000 prepaid customers due to amaysim, while the postpaid customer base grew by 30,000. The home customer base was up 8,000, mainly from FWA, partly offset by a decline in the NBN base.

As part of Optus' strategy to bring its network infrastructure under specialist facilities companies and unlock capital to invest in sustainable long-term growth, it announced an agreement for the sale and license-back of around 340 mobile towers and rooftop sites to Waveconn – an Australian infrastructure operator and established partner.

Optus accepted an offer from Nine Entertainment Co and Stan to assign the rights to the Premier League and Emirates FA Cup for the remainder of the rights' term. This was a decision made to focus more on Optus' core operations in telecommunications, commitment to customers, and to unlock further value for the business in the future.

In enterprise and business, an Optus-led consortium was announced to build, launch and operate a new Australian Low Earth Orbit (LEO) Satellite, with a target launch date of early 2028. This collaboration marks a significant step forward for Australia's capabilities in space-based connectivity and critical space domain awareness.

Others	13	13	-2.3
Operating expenses	1,206	1,183	2.0

#### FINANCIAL PERFORMANCE

#### For The Half Year Ended 30 September 2025

Singtel Singapore reported stable operating revenue for the first half of the year despite a highly competitive market, with mixed performance across its service segments.

Mobile service revenue fell 9.7%, primarily due to intense price competition and reduced roaming, which were partially offset by growth in Internet of Things (IoT) connectivity. The decline in roaming revenue was attributable to lower wholesale volume, increased bundling of roaming services in mobile plans and heightened eSIM competition.

Equipment sales revenue rose 5.6%, driven by higher sales of devices and accessories, and more subscriptions of the Singtel PayLater instalment plan.

Revenue from Data and Internet grew 1.8% from higher international leased circuits and broadband service revenues, partially offset by lower domestic leased circuits revenue.

ICT revenue increased 14%, led by managed services bundled with equipment sales. This growth was partially offset by lower data centre revenue following the closure of legacy facilities.

Other revenue included S\$17 million (H1 FY2025: Nil) from the construction and sale of submarine cable stub<sup>10</sup>.

Overall operating expenses increased 2.0%, mainly from higher equipment and hardware costs incurred with the increase in sales.

Other income rose 27%, primarily due to NBN grants for the 10 Gbps broadband service from April 2025 and a one-off compensation received for a contractual breach. The increases were partially offset by lower cable diversion income.

Consequently, EBITDA declined 3.2%. EBIT was stable with lower depreciation due to a smaller asset base, although amortisation expense rose following the investment in 700MHz spectrum in November 2024.

<sup>&</sup>lt;sup>10</sup> This is a short segment of submarine fibre optic cable that is pre-laid from the cable landing station and extended into territorial waters.

#### **SECTION 3: SINGTEL SINGAPORE**

#### **BUSINESS HIGHLIGHTS**

Singtel has introduced Priority and Enhanced mobile plans powered by advanced 5G slicing, following its 700 MHz spectrum deployment and launch of 5G+. These plans deliver better speed and reliability for customers seeking superior connectivity. Over a third of Singtel's postpaid customers have switched to the plans since the introduction in May, reflecting strong demand for premium mobile services and Singtel's differentiated network.

Singtel also partnered with Tencent Games to launch the world's first commercial network slicing deployment for Honor of Kings Cloud, significantly enhancing mobile gaming performance. In addition, TxStore, a new Android app store for gamers in Singapore, initially featuring over 30 popular titles, including PUBG Mobile, was introduced.

In the enterprise space, Singtel and its partners signed a contract with NEC Corporation in July 2025 to build the Asia United Gateway East (AUG East) submarine cable system linking Singapore and Japan, with branches to several regional countries. Targeted for completion by September 2029, this high-capacity system will boost bandwidth, reduce latency, and enhance network diversity and resilience.

Singtel, in partnership with Enterprise Singapore (EnterpriseSG) and the IMDA, introduced the Cyber Protect Programme to strengthen the cyber resilience for over 49,000 SMEs as part of broader digitisation efforts.

#### **SECTION 4 : NCS**

#### NCS

**NCS** is a leading technology services firm in Asia Pacific, partnering with governments and enterprises to advance communities through technology. With an approximate 14,000-strong team across 56 specialisations, NCS offers differentiated and end-to-end technology services via its Gov+, Enterprise and Telco+ groups.

#### **SECTION 4: NCS**

#### Notes:

- (1) The above results are based on the standalone results of NCS group, which include revenue earned as a vendor to other entities in the Singtel Group. Certain products and services purchased by these Singtel entities from NCS are subsequently sold to third parties.
- (2) Includes trade foreign exchange differences, rental income, gain/loss on disposal of property, plant and equipment, and other miscellaneous recoveries. For the half year ended 30 September 2025, other income included a one-off credit from a subcontractor as well as net trade foreign exchange gain of S\$3 million (H1 FY2025: S\$2 million of gain).
- (3) Includes amortisation of acquired intangibles of S\$6 million (H1 FY2025: S\$7 million) for the half year ended 30 September 2025.
- (4) SBG refers to Strategic Business Group. Gov+, Enterprise and Telco+ focus on growing NCS' business in:
  - (a) Public service, Defence and Homeland Security;
  - (b) Healthcare, Transport, Financial, Industrial and Commercial sectors; and
  - (c) Communications, Media and Technology sectors, respectively.
- (5) Applications comprise business application implementation and management, SAP and Microsoft solutions, enterprise application delivery, operational excellence and testing services. Infrastructure comprises enterprise infrastructure management services including architecture, service management, systems and database administration, network integration and management, data centre and business continuity planning, end user computing and service desk operation. Cyber comprises security architecture, threat monitoring, access management, end point and network security. Engineering comprises implementation and management of telecommunications infrastructure, aviation communications, intelligent building systems, secured communications, video technology and analytics, sensors, internet of things (IoT) solutions as well as command and control systems.
- (6) Refers to capabilities in Digital (Digital transformation and digital experience), Data (Data and Al strategy, big data and Al/ML application), Cloud (Cloud strategy and cloud innovation), Platforms (Gen Al, IoT, robotics automation, video intelligence) and Cyber.

Repair, maintenance and others	22	17	24.9	
Operating expenses	1,322	1,267	4.4	

#### Note

(1) Excludes staff under contract with less than one year.

#### FINANCIAL PERFORMANCE

#### For The First Half Year Ended 30 September 2025

NCS continued to deliver strong results in the first half of the year. Operating revenue was up 6.2%, driven primarily by growth in Gov+ and Telco+ businesses. Demand for core IT services, digital resilience, data and Artificial Intelligence (AI) pilots remained robust.

EBITDA and EBIT rose 30% and 41% respectively, reflecting solid operational performance underpinned by margin expansion across all business segments, better delivery quality and cost optimisation. The results were also lifted by a one-off credit from a sub-contractor.

NCS secured S\$1.8 billion in orders in the first half of the year, as a result of new contract wins and renewals across various industries.

#### **SECTION 4: NCS**

#### **BUSINESS HIGHLIGHTS**

NCS has announced at its annual flagship Impact Forum a S\$130 million investment over three years in AI transformation to support enterprises and government agencies in the Asia Pacific region. This includes initiatives such as Sunshine.AI, a comprehensive suite of AI tools designed to enhance coding, operations, and productivity. It introduced new services for Digital Resilience – covering cyber security, data, applications, infrastructure and operations.

In addition, NCS has partnered with six global technology leaders, including NVIDIA, Google Cloud, and AWS, to advance AI solutions for its clients. It also deepened collaboration with research institutions, particularly those working on AI safety and Southeast Asian language models.

#### **SECTION 5: DIGITAL INFRACO**

#### **DIGITAL INFRACO**

**Digital InfraCo** provides regional data centre services through Nxera<sup>11</sup>, satellite services, the Paragon platform for 5G multi-access edge compute (MEC) and cloud orchestration, as well as Al Cloud Service through RE:Al. Nxera<sup>11</sup> has presence in Thailand, Indonesia and Malaysia through its associates, namely GSA Holdings Company Limited<sup>12</sup>, PT Teknologi Data Infrastruktur<sup>12</sup> and ST Dynamo DC Sdn. Bhd.<sup>12</sup> respectively.

Selling, administrative and property related expenses	21	24	-11.1
Traffic expenses	8	9	-11.5
Others	5	7	-27.6
Operating expenses	107	111	-3.2

#### FINANCIAL PERFORMANCE

#### For The Half Year Ended 30 September 2025

Operating revenue for the first half of the year fell 1.5%, due to a customer reservation fee received for DC Tuas in the same period last year which did not recur, as well as a decline in project-based satellite deployment services. However, the decreases were partially offset by new data centre turn-on and price increases, and the recognition of RE:Al revenue since December 2024 quarter. The first phase of RE:Al's investment in GPUs was fully sold and utilised.

Despite lower operating revenue, EBITDA remained stable as operating expenses fell 3.2% mainly from lower selling, administrative and property related expenses. The higher staff costs were mainly due to increased headcount to support regional business growth.

EBIT increased 5.8% after including lower depreciation and amortisation as certain assets reached end-of-life.

#### **SECTION 5 : DIGITAL INFRACO**

#### **BUSINESS HIGHLIGHTS**

Nxera has pre-sold more than 50% of its capacity at DC Tuas in Singapore. In Thailand, GSA Holdings has pre-sold more than 80% of its capacity in its first data centre, and began the construction of its second data centre.

In July 2025, Nxera's held its first Sustainable Al Data Centre Career Day. During the event, Nxera and its industry partners announced plans to train and hire more than 500 people for data centre and digital roles in support of Singapore's Al goals.

Nxera won a Bronze award for Innovation in CSR Videos at the 12th Annual Asia-Pacific Stevie® Awards.

In August 2025, RE:Al became the first in Asia-Pacific to launch, deploy, and operationalise NVIDIA's GB200 Grace Blackwell Superchips. This milestone positions RE:Al at the forefront of regional Al compute innovation, offering faster large-language model inference and better energy efficiency. For its pioneering work in scalable and sustainable Al infrastructure, RE:Al has received the Southeast Asia GPU-as-a-Service Competitive Strategy Leadership Award from Frost & Sullivan.

Paragon was honoured with the Operator Deployment Award at the prestigious FutureNet Asia Awards 2025, recognising excellence in network automation and Al implementation.

#### **SECTION 6: ASSOCIATES / JOINT VENTURES**

# **ASSOCIATES/ JOINT VENTURES**

The Group has presence in Africa, India, Indonesia, the Philippines, and Thailand through its associates, Bharti Airtel, Telkomsel, Globe, AIS and Intouch. On 1 April 2025, Intouch was merged to form Gulf Development Public Company Limited, of which Singtel holds an equity interest of 7.7%.

#### Notes:

- (1) The accounts of the associates are prepared based on local accounting standards. Where applicable and material, the accounting policies of the associates have been restated for compliance with the Group's accounting policies.
- (2) As at 30 September 2025, Singtel holds an equity interest of 24.8% (31 March 2025: 23.3%) in AIS.
- (3) Share of results excluded the Group's share of the associates' one-off items which have been classified as exceptional items of the Group.
- (4) As at 30 September 2025, Singtel holds an equity interest of 49.4% (31 March 2025: 49.4%) in BTL and an effective equity interest of 28.1% (31 March 2025: 29.4%) in Airtel. Airtel's equity interest in Airtel Africa was 62.6% (31 March 2025: 62.4%).
- (5) On 1 April 2025, Intouch was merged to form Gulf Development Public Company Limited. Consequently, Singtel ceased to equity account for Intouch's results with effect from 1 April 2025.
- (6) Singtel holds an equity interest of 24.8% in NetLink NBN Trust, the holding company of NetLink Trust. The share of results included Singtel's amortisation of deferred gain of S\$11 million (H1 FY2025: S\$11 million) for the half year ended 30 September 2025 on assets previously transferred to NetLink Trust but excluded the fair value adjustments recorded by NetLink NBN Trust in respect of its acquisition of units in NetLink Trust.
- (7) Included the share of results of GXS Bank, Singapore Post Limited, APT Satellite International Company Limited, Indara Corporation Pty Ltd and Singtel Somerset Pte. Ltd. ("SSPL", the JV with Lendlease for the development of Comcentre). GXS Bank holds a digital bank license in Singapore. The higher net loss mainly arose from SingPost and SSPL (its loss was equity accounted from April 2025).
- (8) Shows the post-tax underlying profit contribution of the associates to the Group's underlying net profit.
- (9) Assuming constant exchange rates for the regional currencies (Indian Rupee, Indonesian Rupiah, Philippine Peso and Thai Baht) from the corresponding period ended 30 September 2024.

#### FINANCIAL PERFORMANCE AND BUSINESS HIGHLIGHTS

Pre-tax and post-tax contributions from the associates increased 18% and 9.8% respectively. Excluding Intouch which ceased to be equity accounted from 1 April 2025 and in constant currency terms, pre-tax and post-tax contributions would have increased by 31% and 23% respectively. The increase reflected strong performances from Airtel and AIS, despite lower contributions from Telkomsel and Globe.

Airtel Group saw robust earnings growth in both India and Africa from strong execution and higher mobile tariffs. Bharti Telecom reported a larger net loss due to higher finance costs after raising its Airtel stake through borrowings, and increased dividend tax from Airtel's higher payout. AIS posted stronger profit due to revenue growth and effective cost management. Telkomsel's net profit fell due to weaker mobile performance, a capital gain from sale and leaseback of indoor infrastructure in the last corresponding period, and higher interest expenses. Globe's earnings were lower due to weak consumer spending, as stable EBITDA and increased contributions from its fintech associate were offset by higher depreciation and finance charges.

The Group's combined mobile customer base reached 820 million as at 30 September 2025, up 32 million from a year ago, driven primarily by Airtel and Globe.

#### **SECTION 6 : ASSOCIATES/ JOINT VENTURES**

#### PT Telekomunikasi Selular ("Telkomsel")

Telkomsel is the leading integrated telecommunications operator in Indonesia.

Operating revenue was down 4% due to weaker mobile performance, while IndiHome's fixed broadband remained stable. Mobile revenue was pressured by persistent macroeconomic headwinds and the decline in legacy services as more customers switched to OTT messaging applications.

Operating expenses declined 3% primarily due to reduced operations and maintenance expense. Consequently, EBITDA fell 6%.

Telkomsel's net profit<sup>13</sup> (excluding fair value adjustments for its stake in GoTo) declined 12%, mainly because of a capital gain from the sale and leaseback of indoor infrastructure in the last corresponding period, and higher interest expenses.

In Singapore Dollar terms, Telkomsel's post-tax contribution decreased 17% after accounting for a 6% depreciation of the Indonesian Rupiah.

Telkomsel's mobile customer base remained stable from a year ago. The company continued to focus on acquiring high-quality customers and enhancing customer value through targeted cross-selling and upselling.

#### Advanced Info Service ("AIS")

AIS, a major telecommunications operator in Thailand, is listed on the Stock Exchange of Thailand.

AIS reported a strong set of results in the first half of the year with growth across all business segments. Core service revenue grew 7%, mainly driven by demand for quality connectivity and premium content. Mobile revenue was up from higher ARPU on the back of a rise in high-quality customers, and value-added services. Fixed broadband revenue also rose strongly, lifted by higher ARPU and an expanded customer base. This performance was attributable to superior network, exclusive content offerings and the provision of beyond-connectivity services.

With higher operating revenue and effective cost management, EBITDA rose 9%. After accounting for lower network depreciation on a lower asset base partially offset by higher amortisation from newly acquired 2100 MHz spectrum, AIS' net profit rose 34%. In Singapore Dollar terms, its post-tax contribution was up a robust 42% after a 5% strengthening of the Thai Baht against the Singapore Dollar.

As at 30 September 2025, AIS' mobile customer base was stable from a year ago. Its 5G customer base represented 34% of its total mobile customer base, as 5G network population coverage reached 95%. AIS' fibre customer base expanded 5.3%, supported by quality customer acquisition and low churn.

In July 2025, AIS made its first instalment payment of THB 7.95 billion (S\$314 million) for the 2100 MHz spectrum it acquired in June 2025.

<sup>&</sup>lt;sup>13</sup> Excluded fair value gain or loss from revaluation of Telkomsel's investment in GoTo which was recorded by Singtel in equity in accordance with its accounting policy for investment classified under 'Fair value through other comprehensive income'. Telkomsel records the said fair value gain or loss in its income statement.

#### **SECTION 6: ASSOCIATES/ JOINT VENTURES**

#### Globe Telecom, Inc ("Globe")

Globe is listed on the Philippine Stock Exchange.

Service revenue fell 1% due mainly to weaker mobile performance, but EBITDA was stable with effective cost control. The mobile business was negatively impacted by weak consumer spending and weather disturbances. However, broadband services, especially fibre, continued to grow.

After including higher depreciation from network upgrades, and increased finance charges from tower leases, but a higher equity share of profit from Mynt, Globe's net profit declined 12%. In Singapore Dollar terms, its post-tax contribution for the first half year was down 13% as the Philippine Peso depreciated 2%.

As at 30 September 2025, Globe's mobile customer base grew 5.0% from a year ago, propelled mainly by prepaid.

#### Airtel Group<sup>14</sup>

Airtel is listed on the Indian Stock Exchanges - National Stock Exchange and the Bombay Stock Exchange. It is a leading integrated telecommunications company with presence in 17 countries across Asia and Africa.

#### India and Sri Lanka<sup>15</sup> ("India and South Asia")

Airtel continued to execute well and delivered a solid performance for the first half of the year.

Indus Towers, in which Airtel has an equity interest of 51.0%, was consolidated on a line-by-line basis with effect from December 2024 after Airtel gained control.

In India, operating revenue rose 13% and EBITDA was up a strong 15%, assuming Indus Towers was consolidated from April 2024.

The revenue increase was led by mobile service revenue growth, supported by higher mobile tariffs and an expanded customer base. Airtel's industry-leading ARPU - a key telecom metric rose 10% year-on-year to INR 256 in the September quarter. Airtel Business reported growth driven by broad-based improvement across segments. Home broadband revenue grew mainly from strong customer additions.

Including higher depreciation and amortisation, the Group's share of pre-tax operating profit (before finance costs and fair value adjustments) from India and South Asia increased 38%.

As at 30 September 2025, Airtel India's mobile customer base rose 3.6% from a year ago to 364 million.

<sup>&</sup>lt;sup>14</sup> Airtel's results as equity accounted by Singtel are based on IFRS.

<sup>&</sup>lt;sup>15</sup> Airtel's subsidiary in Sri Lanka was deconsolidated in June 2024.

#### **SECTION 6: ASSOCIATES/ JOINT VENTURES**

#### **Africa**

Airtel Africa Plc, the holding company of Airtel's African operations, is listed on the London Stock Exchange and Nigeria Stock Exchange. Airtel Africa was added to the FTSE 250 index and MSCI Small Cap index in 2019, as well as FTSE 100 index in January 2022.

Airtel Africa is a leading provider of telecommunications and mobile money services, with operations in 14 countries<sup>16</sup> in Africa.

Airtel Africa's operating revenue and EBITDA rose 26% and 33% respectively, lifted by higher earnings at Nigeria due to mobile tariff hikes. Voice and data revenues rose following network expansion and higher usage. Airtel Money revenue also rose, mainly from growth in its customer base as the distribution network expanded.

After including higher depreciation and amortisation charges from increased investments in mobile network, the Group's share of Airtel Africa's pre-tax operating profit (before finance costs and fair value adjustments) grew 36%.

As at 30 September 2025, Airtel Africa's mobile customer base rose 11% from a year ago to 174 million.

#### Airtel Group including Bharti Telecom Ltd ("BTL")

Airtel, comprising businesses in India and Africa, reported growth in operating revenue, EBITDA and EBIT of 17%, 20% and 29% respectively, assuming Indus Towers was consolidated from April 2024.

With lower net finance expense mainly due to a fair value gain and lower interest expense, and 7% depreciation of the Indian Rupee, the Group's share of overall post-tax profit increased 72%. Interest expense was lower following repayment of borrowings during the year.

As at 30 September 2025, BTL holds a 40.7% equity stake in Airtel, up from 39.3% a year ago. Its net loss widened due to higher finance expenses from borrowings to acquire Airtel shares from November 2024 to February 2025, as well as increased dividend tax expense from Airtel's larger payout.

Including BTL, Airtel Group's total post-tax profit contributions rose 81%, even as the Group's effective equity interest fell from 29.4% to 28.1% following the divestment of 1.2% stake in May 2025.

As at 30 September 2025, overall mobile customer base increased 5.8% from a year ago to reach 538 million.

On 7 November 2025, Singtel sold 0.8% of its direct stake in Airtel for S\$1.5 billion via a private placement, realising an estimated net gain of S\$1.1 billion. Following the completion of the divestment, Singtel's effective economic stake in Airtel is 27.3%, down from 28.1% previously.

<sup>&</sup>lt;sup>16</sup> Namely Nigeria, Chad, Congo B, DRC, Gabon, Madagascar, Niger, Kenya, Malawi, Seychelles, Tanzania, Uganda, Zambia and Rwanda.

### Note:

(1) Referred to retail customers who took up broadband (including fixed/4G/5G Internet) and/or voice.

### **SECTION 8: GLOSSARY**

"ACCC" Australian Competition and Consumer Commission.

"ACMA" Australian Communications and Media Authority.

"Al" Artificial Intelligence.

"API" Application Programming Interface.

"ARPU" Average revenue per user.

"Associate" Refers to an associate and/or a joint venture company under Singapore Financial Reporting Standards

(International).

"ATO" Australian Taxation Office.

"El" Exceptional items, which refer to items of income or expense within profit or loss from ordinary activities

that are of such size, nature or incidence that their separate disclosure is considered necessary to explain

the performance for the financial period.

**"EBIT"** Earnings before interest and tax.

"EBITDA" Earnings before interest, tax, depreciation and amortisation, and does not include the share of pre-tax

results of associates.

"EBITDA margin" Ratio of EBITDA over operating revenue.

"EPS" Earnings per share.

"Free Cash Flow" Free cash flow refers to cash flow from operating activities less cash capital expenditure.

"FWA"Fixed Wireless Access."GPU"Graphics Processing Unit.

"HFC" Hybrid Fibre-Coaxial.

"IMDA" Infocomm Media Development Authority.

"MOU" Memorandum Of Understanding."MVNO" Mobile Virtual Network Operator.

"NA" Not applicable.

"NBN" National Broadband Network.

"ND" Not disclosed.

"NM" Not meaningful.

"NPS" Net Promoter Score. This is a widely used metric to measure customer experience by scoring the

willingness of customers to recommend a brand following an interaction with the company.

"Optus" Singtel Optus Pty Limited, Singtel's wholly-owned subsidiary.

"OTT" Over-the-top.

"Regional associates"

Comprises Airtel, AIS, Telkomsel and Globe. Intouch was a regional associate before April 2025.

"SFRS(I)" Singapore Financial Reporting Standards (International).

"SMS" Short message service.

"SME" Small and medium-sized enterprises.

"TIO" Refers to Telecommunications Industry Ombudsman in Australia.

"Underlying net

profit"

Defined as net profit before exceptional items.

"VPN" Virtual Private Network.

### **OUTLOOK FOR THE CURRENT FINANCIAL YEAR ENDING 31 MARCH 2026**

- OpCo EBIT<sup>1</sup> to grow between high single digits and low double digits<sup>2</sup>.
- Cost savings<sup>3</sup> of approximately S\$200 million in Singtel Singapore and Optus.
- Dividends from the regional associates are expected to be approximately S\$1.1 billion<sup>4</sup>.
- Total capital expenditure is expected to be around S\$2.5 billion. Core capital expenditure is expected to be around S\$1.7 billion, comprising A\$1.3 billion (S\$1.1 billion) for Optus and S\$0.6 billion for the rest of the Group. Another S\$0.8 billion<sup>5</sup> is to be invested in data centres, AI, digitalisation and satellites including a satellite to replace ST-2 by 2028.

<sup>&</sup>lt;sup>1</sup> This refers to EBITDA less depreciation and amortisation charges.

<sup>&</sup>lt;sup>2</sup> Based on average exchange rate during FY2025 of AUD1: S\$0.8725.

<sup>&</sup>lt;sup>3</sup> Before impact of inflation.

<sup>&</sup>lt;sup>4</sup> Intouch ceased to be an associate on 1 April 2025. Singtel received S\$288 million in dividends from Intouch in FY2025

<sup>&</sup>lt;sup>5</sup> S\$0.6 billion will be funded by external capital partners and advance satellite receipts from customers.

# **BUSINESS SEGMENT RESULTS**

The segments are as follows -

**Optus** offers mobile, equipment sales, fixed voice and data, satellite, ICT and managed services in Australia.

**Singtel Singapore** offers mobile, fixed voice and data, pay television, content and digital services, ICT as well as equipment sales.

**NCS** provides differentiated and end-to-end technology services via its Gov+, Enterprise and Telco+ groups.

**Digital InfraCo** provides regional data centre services through Nxera, satellite services, the Paragon platform for 5G multi-access edge compute (MEC) and cloud orchestration, as well as Al Cloud Service through RE:Al.

**Corporate** comprises the costs of Group functions not allocated to the business segments.

### Note:

Cash capex to operating revenue

(1) For purpose of statutory reporting, cash and cash equivalents excluded restricted cash and fixed deposits with original maturity longer than three months.

### **CURRENCY RISK MANAGEMENT AND OTHER MATTERS**

The Group maintains a policy to substantially hedge all known foreign currency exposures related to commercial commitments or transactions. These commitments or transactions include payment of operating expenses, traffic settlement, capital expenditure, interest and debt. Translation risks of foreign currency EBITDA and net investments are not hedged unless approved by the Finance and Investment Committee.

The Group has borrowings denominated in foreign currencies that have primarily been hedged into the functional currency of the respective borrowing entities using cross currency swaps in order to reduce the foreign currency exposure on these borrowings. As the hedges are perfect, any change in the fair value of the cross currency swaps has minimal impact on profit and equity.

Financial instruments such as foreign currency forward contracts and cross currency swaps are used only to hedge underlying commercial exposures and are not held or sold for speculative purposes. All hedging transactions are reviewed regularly.

### PROFORMA INFORMATION

The following tables show unaudited proforma proportionate financial information which has been derived from the Income Statements of the Group prepared on a statutory basis.

Proportionate presentation is not required by SFRS(I) and is not intended to replace the financial statements prepared in accordance with SFRS(I). However, since the associates are not consolidated on a line-by-line basis, proportionate information is provided as supplemental data to facilitate a better appreciation of the relative contribution from the Group's operations in Australia, Singapore and other regional markets.
