

**Effective Date:** 6 July 2010

**Name of Service:** Meg@POP and Dark Fibre Services. *For additional details, refer to [www.singtel.com](http://www.singtel.com) under "Business Customers"*

**Description:** Customised Temporary Dark Fibre and Meg@POP Services Scheme (**Customised Scheme**)

**Prices (including discounts):**

Service	Monthly Recurring Charge	One Time Charge
Dark Fibre	\$9,500 per strand	\$10,000 per site
4M IPVPN EthernetLink	\$580 per circuit	Prevailing list price
20M IPVPN EthernetLink		
4M IPVPN EthernetLink Auto Backup		
20M IPVPN EthernetLink Auto Backup		

1. The minimum contract term for the Dark Fibre service is two (2) months and for the Meg@POP service is one (1) month.
2. The maximum contract term for the Dark Fibre and Meg@POP services is three (3) months.

**Terms and Conditions:**

1. There will be no auto renewal of the Customised Scheme.
2. For any services required after the expiry of the agreement, the customer will have to re-negotiate the terms and conditions with SingTel.
3. Services subscribed under the Customised Scheme are subjected to resource availability.
4. If any remote access facilities are required or for any customisation requirements, the customer will be quoted separately.
5. The customer is not allowed to resell the service subscribed under the Customised Scheme.
6. The services subscribed under the Customised Scheme may only be used in conjunction with the Youth Olympic Games 2010.
7. All other terms and conditions of the SingTel Dark Fibre and Meg@POP services shall apply.

**Suspension and Termination Provisions:**

In the event that the customer terminates a circuit subscribed under the Customised Scheme prior to the end of the contract term, the customer shall be liable for the prevailing premature termination charges.

**Eligibility:**

The Customised Scheme will be offered to any customer who satisfies the following criteria:

- is willing to subscribe to at least 38 x Dark Fibre strands, 2 x 4M temporary EthernetLink circuits, 1 x 4M temporary EthernetLink Auto Backup circuit, 2 x 20M temporary EthernetLink circuits and 1 x 20M temporary EthernetLink Auto Backup circuit in a single application; and
- accepts the terms and conditions of the Customised Scheme in its entirety.
