

Effective Date: 13 July 2012

Name of Service: MetroEthernet Service. *For additional details, refer to www.singtel.com*

Description: MetroEthernet Service Level Agreement (SLA)

Prices (including discounts):

Point-to-Point, Point-to-MultiPoint and International Gateway Access

1. Service Provisioning

Delay	Rebate (% of installation charges)
1 working day	10%
2 working days	20%
3 working days	50%
4 working days	75%
>5 working days	100%

2. Service Availability

Outage (x)	Availability (%)	Rebate (% of monthly recurring charge)
0 hours < x ≤ 4hours	≥99.44% to <100%	10%
4 hours < x ≤ 10 hours	≥98.61% to <99.44%	20%
10 hours < x ≤ 20 hours	≥97.22% to <98.61%	30%
20 hours < x ≤ 30 hours	≥95.83% to <97.22%	50%
> 30 hours	<95.83%	100%

3. Latency

Network Latency	Rebate (% of monthly recurring charge)
>2ms	10%

Network latency shall mean the average time (in milliseconds) for a 64-byte diagnostic data to transit the MetroEthernet network and return. For the avoidance of doubt, the latency SLA only applies to circuits provisioned on the Carrier Ethernet (CE) platform due to technical limitations on the Synchronous Digital Hierarchy (SDH) platform.

Any-to-Any

4. Mean-Time-To-Restore (MTTR)

Outage	Rebate (% of monthly recurring charge)
---------------	---

6 – 12 hours	5%
>12 – 24 hours	15%
>24 – 48 hours	20%
More than 48 hours	30%

MTTR is calculated on a monthly basis as follows:

$$B / F$$

Where B = Average time taken by SingTel to restore service for all fault incidents occurring in a month. (For the avoidance of doubt, calculation of time commences from the time such fault is reported to the Global Helpdesk by the customer)

F = Total number of faults for the same circuit(s) in the same month

5. Service Availability

MetroE Scheme	Service Level	Rebate (% of Monthly Rental)
Any-to-Any	Below 99.95%	10%

Terms and Conditions:

1. The customer shall not be entitled to make any claim under any of the above SLA in any of the following circumstances where applicable:
 - (a) disconnection and/or reconnection of the service due to any non-payment of any fees and charges; or where the service is disconnected by reason of it being used for any illegal or unlawful purpose; or otherwise where the customer is in breach of the terms and conditions of service;
 - (b) provision of the service under promotional packages or trials with or without any fees or charges;
 - (c) fault due to any equipment, wiring and/or socket(s) and/or cabling network owned or operated by the customer, or customer acts or omissions, including those of customer's employees, officers, contractors, agents or vendors;
 - (d) provision or restoration of the service where overhead pole erection is involved, or where any site co-ordination meeting is involved, or where any offshore island is involved, or where SingTel needs to obtain or maintain any license, wayleave, permission or easement necessary to the provision or maintenance of the service;
 - (e) SingTel's staff and/or its agent have difficulty accessing to or working in the customer's premises due to the premises being inaccessible, in unsafe working condition or in any other inadequate or deficient state;
 - (f) provision of the service upon the customer's requested appointment time on the RFS date, or on a date different from RFS date as agreed, or where the RFS date is changed

by the customer;

- (g) delay in provision or restoration of the service, or interruption to the service, caused by events beyond SingTel's reasonable control, including but not limited to removal of or damage caused to SingTel's distribution point, cables or poles by whomsoever and for whatsoever reasons;
- (h) provision of the service in areas where there is no existing or sufficient SingTel cable or equipment capacity in the vicinity;
- (i) where SingTel is unable to provide or maintain the service or there is a delay in providing or maintaining the service owing to any regulatory constraints, prohibitions or limitations or any failure, refusal or delay by any building owner or regulatory authority, including IDA in granting SingTel any wayleave, license, approval or consent to use the MDF or TER(s) in any building which is necessary or incidental to the provision or maintenance of the service;
- (j) disruption of the service due to deterioration of the customer's facility housing SingTel equipment to a level below the specifications and operating conditions advised by SingTel;
- (k) provision of the circuit for temporary usage;
- (l) planned outages of which SingTel has given advance notice;
- (m) customer equipment not being ready thereby affecting the RFS date;
- (n) network outages for which the customer has not reported a fault. Pro-active monitoring and any detection by SingTel of any fault are excluded in this SLA;
- (o) throughput of the circuit bandwidth;
- (p) any period for which SingTel, during testing action, confirms has circuit performance consistent with SingTel's performance standards.
- (q) periods where the circuit(s) has been restored by diverting all information from the affected site to another local location chosen by the customer as part of a disaster recovery plan separately subscribed for by the customer;
- (r) fault reported by customer but no fault is found or confirmed by SingTel;
- (s) periods where customer's staff are not available or contactable;
- (t) a circuit is able to communicate with at least one other circuit or application on the respective service network.

2. All other terms and conditions of SingTel MetroEthernet service shall apply.

Suspension and Termination Provisions:

refer to www.singtel.com

Eligibility:

Retail customers and SingTel authorised resellers
